

Summary of invention

“hung” is changed to “attached

Detailed description of invention

1. As presented in the amended claims the FCC pre-certified analog bandwidth 916 MHZ transceiver module replaces “transceiver” and “transmitter/receiver”.
2. As in the claims the SCR is eliminated.
3. “antenna” changes to “planar antenna”.
4. “test button 19” and “reset button 21” are added.
5. As in the amended claims “battery saver circuit 13” and “pulsing voltage 15” are eliminated.
6. The last line including “125 cubic inches” added.

ABSTRACT

1. Each line of the abstract has been changed.

CLAIMS:

Cancel the claims of record (1 and 2) and substitute new claims 3 and 4 as follows:

3. A smoke and fire alarm device system for a Christmas tree and residential structures comprising;

a housing attached to a Christmas tree, a plurality of housings fixed to a ceiling or wall;

a FCC-pre-certified 916 MHZ RF transceiver module inside said ceiling/wall housings;

an ionization-type smoke sensor circuit in combination with a thermal sensor circuit to trigger said RF module in said ceiling/wall housings;
